Another Beautiful Day

HMM

It's another beautiful day.

My name is Po.

I live on the streets of New York City.

HELP

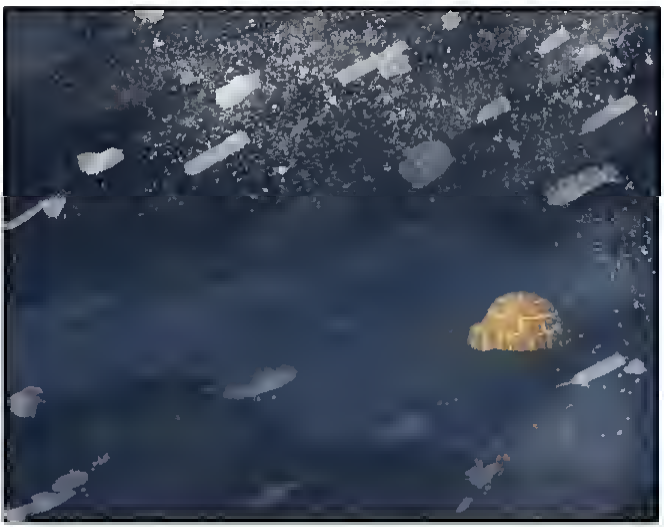
It has been 5 years since I came to this city.

My home was the Arctic.

It was covered with snow and ice,

and it was very cold.



I used to live in a cozy home and

had lots of time to relax.

I used to hang out with my friends

and we had lots of fun.

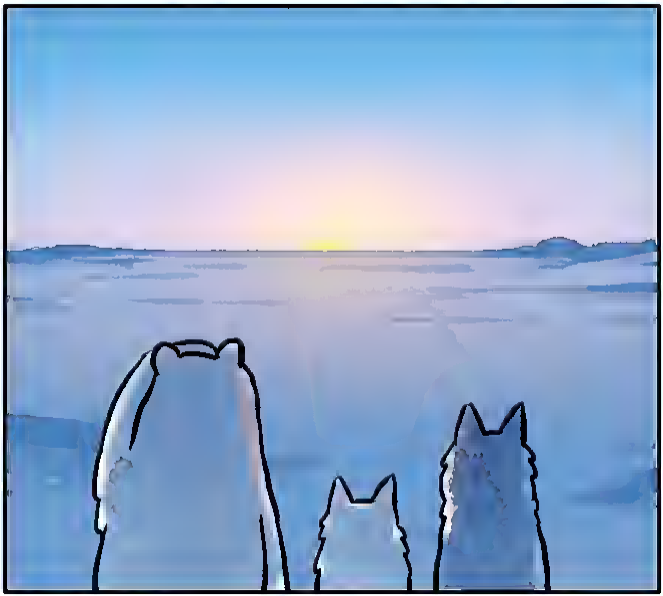
We had plenty of food,

and life was good.

Last night of darkness!
I will miss the nothern lights.
The sun will come up tomorrow, let's watch it together!

At the Arctic, there are 6 months of darkness

and 6 months of daylight in a year.



I love watching sunrises,

because the sun only rises once a year at my home.

But things began to change.

The climate became warmer and warmer

and my home got smaller and smaller.

Finding food became more and more difficult.

I left my house and became a nomad.

Maybe I can find more food if I go further.

No fish...

The ice kept melting and drifting apart,

and I was lost.

Help!

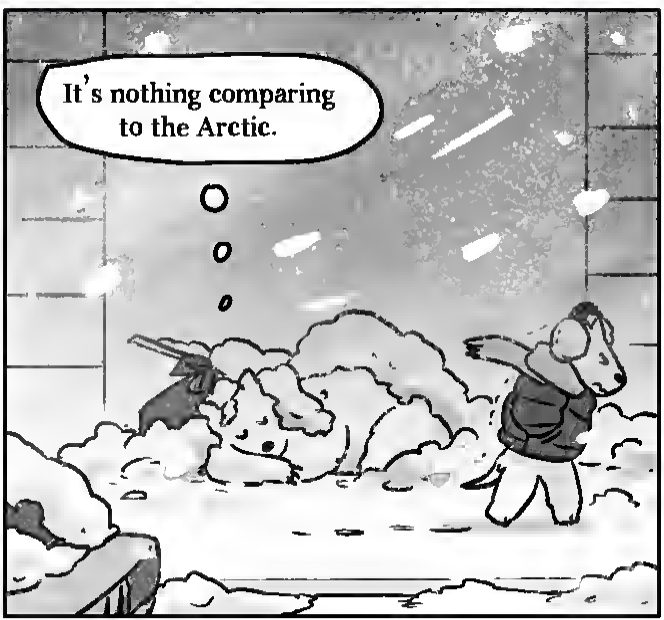
After many days, I drifted to a foreign country.

That's how I came to this city.

Everything is different, but life is not that bad.

I have safe place to sleep and don't have to worry

if it will disappear like ice.



There are all kinds of food

so I don't have to worry about going hungry.

There are a lot of interesting things to do.

Everyone in the city is always so busy.
HOMELESS

I miss my home, but I'm happy that

I can watch the sun rise every day in the city.

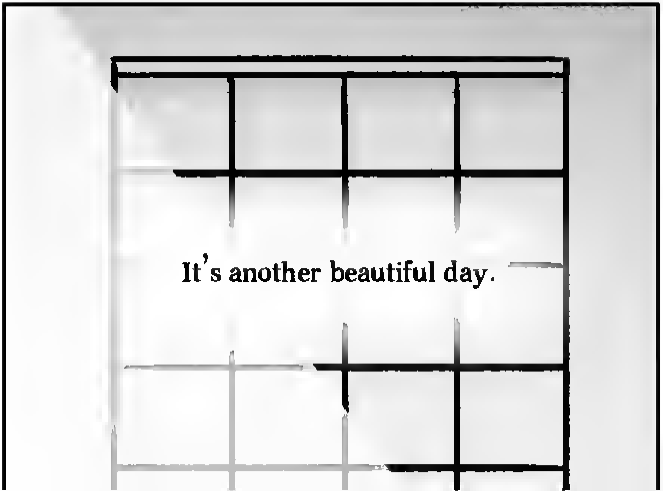
Oh, there is still coffee left with half a sandwich.



It's another beautiful day.

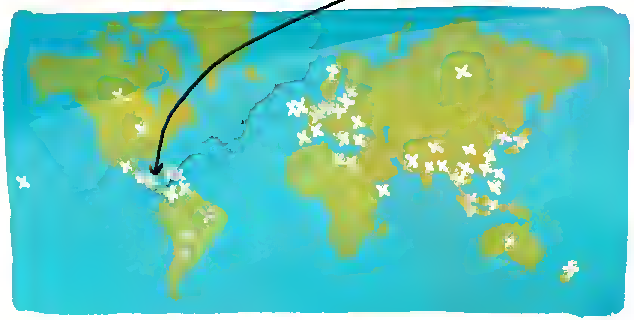
Whitetail deer from Costa Rica

Readers from Costa Rica!



The White Tailed Deer is the national animal of Costa Rica. They are very good at running, leaping and swimming. The mother deer's white tail can help her fawns to follow her!
